

Haul Pro™

Resin Modified Emulsion for Haul Roads

Solutions For Your Haul Road Challenges

- Reduce dust
- Improve haul road surfaces
- Reduce watering
- Reduce grading
- Extend tire life

Where to use Haul Pro

Developed to solve dust problems found in the severe conditions on mine haul roads, Haul Pro is ideal for all areas where problem dust is an issue.

Haul Pro has been specifically designed and proven to be a long-term solution for efficient control of road dust as well as for use in mine tailings, stockpiles, and for erosion control.

Traffic on a Haul Pro surface will compact the road into a smooth dust-free pavement-like surface.

Environmentally friendly

Made from all natural products harvested on a sustainable basis, Haul Pro is non-hazardous and safe for the environment.

Economical

Haul Pro is shipped efficiently as a high concentrate and diluted with water before application. With its long lasting nature, you spend less time re-applying, saving you both time and money.

Long lasting

The condition of the road, the degree of Haul Pro penetration, and the amount of traffic combine to determine the life of a Haul Pro application.

Haul Pro may help stabilize the road in winter by protecting the road from water intrusion.

No special equipment needed

Haul Pro can be easily applied using a standard spray truck or an experienced Midwest application specialists will work with you to insure a successful Haul Pro dust control program.

Midwest provides turnkey services

Optional turnkey service is available in which we serve our customers with specially equipped trucks, staffed with highly trained operators who deliver products whenever necessary.

Trained field specialists that attend to your individual need.

Physical Properties

Specific Gravity:	0.9 - 1.1
Weight per Gallon (US):	
Appearance:	Light brown-colored liquid emulsion
Odor:	Musty, woody
pH:	6 - 9
Boiling/Melting Point	
@ 760 mm Hg:	212°F (100°C)
Vapor Pressure mm Hg @ 20°C:	N/D
Solubility in Water:	Dilutable
OSHA HCS Hazard Class:	Irritant
Flammability:	Nonflammable, but will burn on prolonged exposure to flame or high temperature
Stability:	Stable under normal handling conditions
Corrosiveness:	Similar to water
Chemical Incompatibilities:	Can react with strong organic oxidizing materials, strong acids and strong bases

Haul Pro is made from all natural products harvested on a sustainable basis.

Suggested applications

- Mine haul roads
- Parking lots
- Runways
- Erosion control
- Helicopter landing pads
