

Dust-Buster® Simplex-1

Dust Control Management System

Manufactured for Years of Use in Harsh Environments

Simplex Dust-Buster systems are low maintenance, highly dependable in harsh conditions, and designed for continuous duty. The system includes the following features:

- Industrial rated water pump
- Industrial rated chemical pump
- Water and air flow meters
- Pressure gauges - air, water and chemical
- Pre-wired control panel with disconnect
- Foam accumulator
- 2 - 25ft lengths of 1in foam hose (7.6m / 2.5cm)
- 2 - 100ft lengths of 3/4 air and solution hose (30m / 2cm)
- Unit Dimensions: 28in wide x 22in deep x 38in high (71cm W x 56cm D x 98cm H)
- 64in high as shown with control enclosure attached to unit (163cm H)
- Shipping weight: 750 lbs. (340kg) with support items

Simplex-1 unit is available in capacities up to 23 gpm (87 lpm) water, 11 gph (42 lph) chemical. With hand and remote operation.

The unit requires industry electric, compressed air, and water hook-ups.

Flow rates tailored to tonnage rates being treated.

Larger single units or multiplex units available.

Design and layout subject to change depending on location and compliance with international standards.

All units can be customized to your specific application.
