

The Midwest Disinfecting System

APPROVED FOR USE AGAINST SARS-COV-2, THE VIRUS STRAIN THAT CAUSES COVID-19 (EPA REG. NUMBER 68660-11)

Midwest is the leader in the control of harmful dust and improving health and safety, everywhere from industrial facilities and underground mines to indigenous villages and rail/transit authorities.

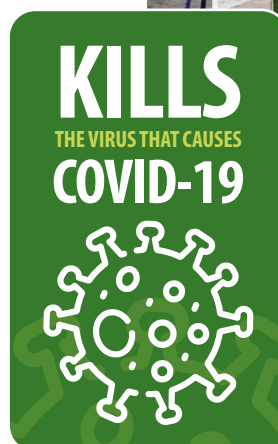

Now we can help you disinfect, clean and deodorize commercial, institutional, industrial and public spaces with a complete, proven system:

1. **HOSPITAL-GRADE DISINFECTANT FORMULATION**
PROXITANE® AHC
2. **WALL-MOUNTED, METERED INJECTION PUMP**
DEMA® MixRite 569CW
3. **SMALL AND LARGE AREA RAPID-APPLICATION SPRAYERS**
GRACO® SaniSpray HP™ Series

Approved by the EPA to sanitize, clean and disinfect against COVID-19.

This is a complete, easy to use system that combines a formulation proven to kill pathogens such as coronavirus by means of a powerful disinfecting action, with specialized equipment to apply product based on your particular facility/environment and ideal capacity.

It's effective, because it's specially formulated to optimize sanitizing and disinfecting through a strong oxidizing action; it's economical, because it's shipped in concentrated form for better value and to save on shipping costs; it's environmentally-friendly, because the formula breaks down quickly into naturally occurring substances.

READY TO SHIP!
